#00 Chamber Breakfast

29 Participants

Was the later starting time more conducive to business day?

Yes:	24
No:	5

If the answer to the previous question was "NO" please explain why?

It promotes getting out later and when you are self employed getting started with the day is sometimes not in your control
Seems like it took more time out of the business day
Since my business can be conducted at any time, any start time is conducive to my business.
Well, the "personal" side of me likes the later start, but the "business" side of me wants more of 9-5 to "do business." I'm fine with it.
Only because of the late ending.

Would you like there to be a longer period of networking and fellowship before the Breakfast program begins?

Yes:	13
No:	16

Any suggestions or feedback on what you would like to see at future Chamber Breakfast?

Everything was great!! Start time finish time networking time. Great job!! Very impressed with the program!!
I believe the networking and fellowship period would be good 10 to 15 minutes prior to breakfast. Those who really want to network at that time, I believe, would attend.
I feel the networking time is sufficient as is...and the additional time we get during the meeting adds to that. If folks want to stay after and continue a conversation...they are free to do so.
Group highlights of particular industries of business recognized ie all real estate owners one breakfast, all plumbers next breakfast, health care another, etc... This will help us to know who is in this industry to use their services and network as well.
Thank you for starting later for working parents who drop off kids at school. I appreciate you making the change.
Thought it was very good overall Kudos to you and Cory
Current format works for me.
Previously, we would provide donations that went to a local charity. Will that be brought back? Would love to know the Chamber's thoughts on this.
